DESCRIPCIÓN

permite mantener una estética uniforme en paneles de conectividad cuando no se utilizan todos los espacios disponibles. Fabricado en material ABS de alta resistencia, ofrece durabilidad superior en entornos de instalación profesional. Su diseño modular simplifica la instalación y remoción sin necesidad de herramientas especializadas. El cumplimiento con la norma ambiental ROHS garantiza la ausencia de sustancias peligrosas, haciéndolo apto para despliegues corporativos y centros de datos con políticas de sustentabilidad. Con dimensiones compactas y peso mínimo, integra perfectamente en infraestructuras de cableado estructurado de alta densidad.

Características principales:

- Compatible con estándar de módulo Keystone®
- Diseño modular de fácil instalación y remoción
- Material ABS resistente y duradero
- Cumple norma ambiental ROHS
- Peso ligero de 10.2 g por pieza
- Especificaciones técnicas:

Parámetro	Valor
Material	ABS
Norma Ambiental	ROHS
Peso	10.2 g por pieza

ESPECIFICACIONES

Característica 1	Color blanco para estética uniforme en racks
Característica 2	Compatible con estándar de módulo keystone
Característica 3	Diseño modular de fácil instalación
Característica 4	Material ABS resistente y duradero
Característica 5	Cumple norma ambiental ROHS
Característica 6	Peso ligero de 10.2 g por pieza
